Internship Activity Register for Students - Weekly Report

Name:	ANAV TRESA ROY	Date:	08-06-2024
Register Number:	22215016	Total Hours Spent:	30 hrs

Summary of activity done by the Student:

- Tries resolving merge conflict between main and master. Commented python code and pushed to repository.
- Learned about merging ,types of merge conflicts that may occur, git diff and stash .
- Searched about different libraries that can be used for table extraction, installed and used tabula for table extraction and converted to csv , though extraction was not proper.
- Extracted table from pdf using camelot and tried to convert specific content to a list using pandas, Searched more about extraction details from documentations of camelot.
- Did visual debugging using plot function to get a graphical view of table and tried debugging bad table outputs.

Summary of Information/Discussion gathered from Internship Mentor:
